THANKSGIVING THOUGHTS FOR 1981

Most of us don't need a crystal ball to surmise that 1981 hasn't been the very best. Yes, we are thankful for the roof over our heads, and there is food on the table - just a bit more difficult to come by!

Let's look at the rough times that came before 1981, and the drive, determination, and foresight of Americans past who were able to see it thru and still deliver the foundations of things we now take for granted.

Look not at the large and most times confusing picture, but at our small component part - Edinburg USA. We can be very proud and thankful for the strong do it yourself volunteers in our town that have created the Fire Co., Emergency Squad, Museum, Grange, Ladies Aux. to name a few. Individuals collectively have fulfilled the wisdom and desires of the good people of Edinburg.

A prime example of collective wisdom is our fine progressive Common School - one of 6 truly community based schools in the State. The variety of programs, services, and expertise available in our little schoolhouse is truly staggering by today's cold standards where cost and numbers count. Thanks again for the wisdom of providing the place for such fine leadership exhibited in our very small but great school system.

This is the time to count our blessings, take stock of inventories, and set sights on future needs for ourselves and our neighbors.

Dick True, Chairman Editorial Committee
